Using a rental is highly affordable and often the machines do a great job for a fraction of the cost of buying your own. Why Rent a Carpet Cleaner? Renting a carpet cleaner makes good sense when you figure out the cost and benefits of renting, as compared to the cost of purchasing one of your own. Besides the price of the machine, you're not responsible for any upkeep or repairs that the machine may require. You can usually find a carpet cleaning machine in stock for rent at most home improvement stores. Locations to Rent a Carpet Cleaner Places like Home Depot, Lowes and Walmart have carpet shampoos that can be rented. The machines make a wide path. The machines also include attachments that can clean your stairs, upholstery and other items. The machines are powerful and dependable. A large solution container and water container means less stopping while you're doing the job for emptying and reloading. Renting a Carpet Cleaner Most places that rent carpet cleaners will have them in the rental areas of their stores or near customer service. Call ahead if you'd like to make sure one is available. Most places only have a couple available for rent. During some seasons, such as spring, they can be popular items. You may have to leave an ID while you have the unit and pay in advance. You will have to provide your own shampoo but it will likely be available for purchase where you get the rental. How Long Will It Take? Shampooing your home with a rental shampooer should not take more than a day from the time you pick up the machine to the time that it takes to physically do the shampooing and let everything dry. If the area in your home that you want to shampoo has any heavily soiled spots or is particularly dirty, then it will likely take a little longer. What Type of Carpet Shampoo? The place where you rent your carpet cleaner will carry the shampoo you should use for the cleaner. Some require special brands recommended by the manufacturer or a type that works best for the machine. Wait until you get the machine to pick up any cleaning solution or shampoo to use with it, especially since the rental company will likely have a recommendation. You'll also be able to pick up spot remover, sprays and any special cleaning supplies that you may need at the rental site. MORE FROM QUESTIONSANSWERED.NET 3 reviews Dirt Devil Featherlite Carpet Shampooer CE6000 Reviews I bought this machine used on Offerup & it works great even as a used machine. It's super easy to work & left my cream colored carpet looking like new. Allyoop7 Irvine CA 2019-01-28 true The "Dirt Devil Featherlite Carpet Shampooer", the name doesn't lie and tells you just exactly what it was built to do. It's really almost literally featherlite and very easy to maneuver around the room. With other vacuum cleaners you often have to lift up the vacuum and reposition it as you go around the room. This thing just glides through easily. It also does an excellent job at deep cleaning and shampooing your carpets. You notice it right away that the carpets color just seems brighter and cleaner and definitely smells that way. It's as easy to use as it looks, has a very simple looking design and very easy to clean. It's also got a fairly small profile and easy to store away. This is definitely one of the better vacuums in the market. avaleste Oakland, CA 2011-04-08 true The Dirt Devil Featherlite Carpet Shampooer was a gift to me. It keeps on giving! It is powerful and deep cleans. It is amazing for such a small machine. It is the size of an upright vacuum but it has some powerful suction. It seems more like a steam cleaner than a shampooer since it releases hot water mixed with cleaning solution, then sucks it back up along with any dirt and most of the water. It cleans very effectively and does not use a lot of cleaning solution. Cleaning solution for this machine is available at Wal-Mart for a reasonable price so you won't go broke cleaning the carpet. The Dirt Devil Featherlite Carpet Shampooer is easy to use and to move around. You won't dread pulling out this carpet cleaner! This machine enables you to quickly clean your carpets and it extracts so much of the liquid used that the carpet dries in record time! The machine itself is easy to clean out after you have finished cleaning the carpet. Simply rinse out the reservoir and put it back on the cleaner until next time. It even stores efficiently since it is upright. simonze Boiling Springs, SC 2009-12-07 true 100.0 Featherlite® Cyclonic Canister packs powerful suction in a compact, maneuverable design. Now it's even easier to tackle corners, crevices, stairs and other hard-to-reach areas with a 10ft. extended reach. And powerful Cyclonic Technology helps cover the tough messes. When you're done, just press the one-touch cord rewind for a fast cleanup. 10ft. Extended Reach - Stretch from floors to ceilings and catch everything in between. One-Touch Cord Rewind - No more cord to wrap, just wind it with the push of a button. Quick-Rinse Filter made with HEPA Media - HEPA Media traps 99.97% of dust and pollens down to 0.3 microns.
